

Datasheet: 775-7233

RS Pro LR44 Alkaline Coin Battery, 1.5 V, 158 mAh

This RS Pro LR44 coin battery is an alkaline battery that can be used to power electronic devices. It is an economical solution when compared to silver oxide alternatives. This coin battery is non-rechargeable but offers a high level of reliability.

Specifications:

Nominal Voltage:	1.5 V
Approx. service capacity:	158 mAh
Approx Weight:	2 g
Size:	LR44
System:	Zinc/Manganese Dioxide. Rated at 5 k Ω , tested at +21 °C within 30 days of manufacture

Features and Benefits:

- High capacity
- Wide operational temperature range
- Long storage life
- Long operational life

Applications:

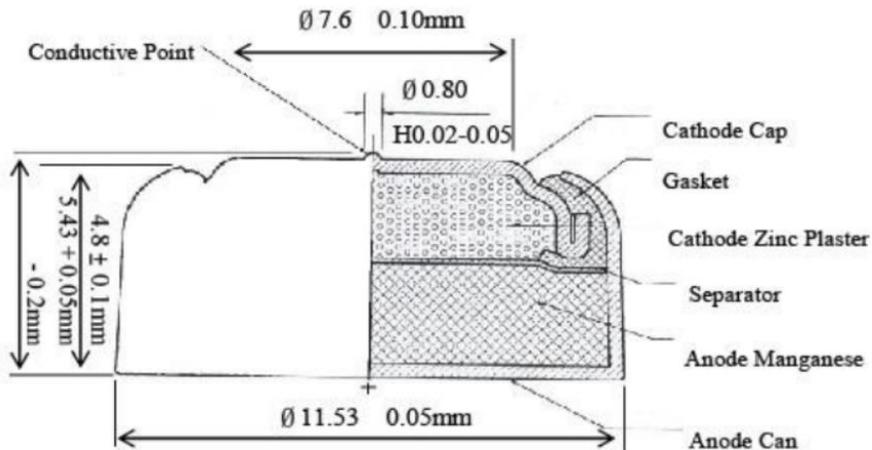

Alkaline coin batteries are used in electronic devices that require a small, compact source of power. Example applications include:

- Calculators
- Toys
- Blinking lights
- Watches
- Hearing aids

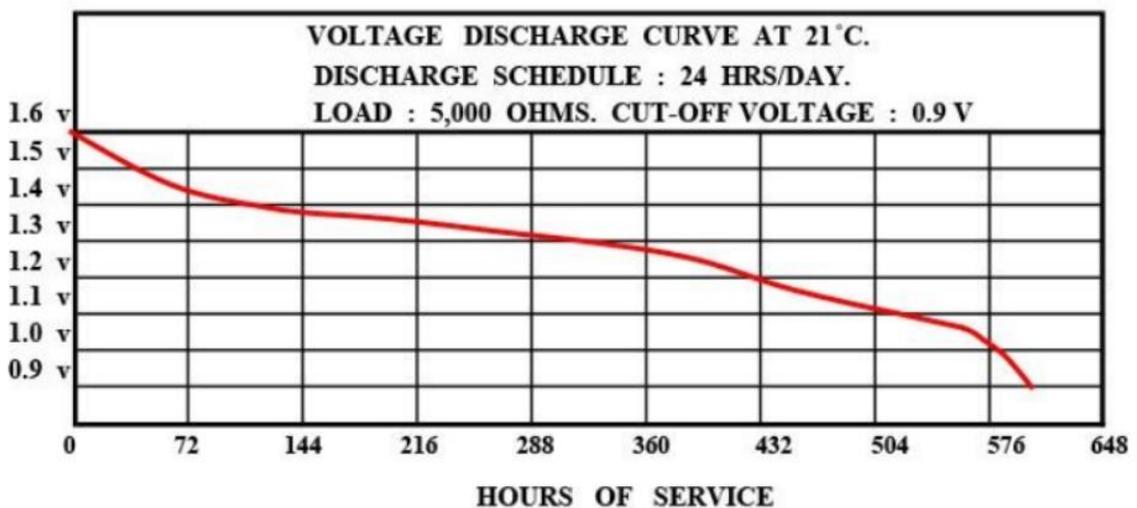

Guidance:

- Always install the batteries correctly as per instruction
- Ensure that the contact points are clean and conductive
- Do not mix different types of battery
- Do not heat or attempt to recharge the battery
- Do not dispose of in a fire

Dimensions:

ESTIMATED AVERAGE HOURS SERVICE AT 21°C

WARNING!

Coin batteries must be kept out of reach of children. Consult a doctor immediately if swallowed.
