# 3M™ Random Orbital Sander 20317, 5 in Non-Vacuum 3/16 in Orbit, 1 per case

3M ID 60440126898 UPC# 00051141203171 Part Number 20317

Our  $3M^{\text{TM}}$  Non-Vacuum Random Orbital Sanders are airpowered and deliver profess onal performance and a swirl-free finish in high-product on industrial environments where dust extraction is not required. Our high-quality tools are designed to optimize the performance of  $3M^{\text{TM}}$  abrasives.

- Precis on-balanced steel workings run smoothly with less vibration, ideal for high production industrial environments
- Improved durabil ty, ergonomics and noise level maximize comfort and control for prolonged use
- Pneumatic power exceeds the capability of standard electric sanders, supplying hours of continual use
- Aluminum body and durable composite cover reduce cracked housings and downtime
- Low-profile, balanced design optimizes the performance of  $3\mbox{M}^{\mbox{\tiny TM}}$  Abrasives

#### Overview

Engineered for performance and ergonomics, our family of 3M™ Non-Vacuum Random Orb tal Sanders are loaded with features to reduce vibration and noise and provide greater wrist support and operator comfort. The comfortable rubber grip featuring proprietary 3M™ Gripping Material, curved-throttle alloy steel lever, and built-in wrist support provide comfortable control, while the recessed lever platform eliminates pinch and pressure points on the operator's palm. The speed control dial is conveniently located on the s de and controlled w th the thumb. We've also lightened the load with a composte cover that extends to the base to absorb and reduce vibration and keep these tools in serv ce by preventing cracked housings. An innovative internal muffler helps reduce noise and won't break off.

#### 3M™ Stikit™ Disc Pad Included

We also include the  $3M^{\text{TM}}$  Stikit  $^{\text{TM}}$  Disc Pad with these sanders. These pads reduce vibrat on, prov de excellent disc adhes on, and are designed to bring out optimal performance of these tools. The Stik  $t^{\text{TM}}$  system allows quick and easy disc removal. This Stikit disc pad is made of medium dens ty foam and has a 45 degree tapered edge, Stik t discs are sold separately. These versatile sanders also work great with  $3M^{\text{TM}}$  Hookit Disc Pads, enabling operators to use our line Scotch-Brite Surface Conditioning Discs as well.

## Why use a 3M™ Random Orbital Sander?

Our random orb tal sanders optimize sanding and surface preparation on many surfaces, including wood, metal prep for paint, fiberglass, compos te materials, and many other substrates. Also known as dual action (D/A) sanders, these industrial-grade tools rotate the abrasive disc and disc pad in two simultaneous overlapping oval patterns so no single abrasive particle follows the same path tw ce, resulting in a swirl-free finish, even when sanding against the grain.

Pneumat c sanders are also called air sanders and run on power generated by an air compressor. These include non-vacuum (NV), central vacuum (CV), and self-generated vacuum (SGV) models. Non-vacuum models such as these are not connected to a vacuum system and are used in applications where dust extract on is not a concern.

Metal fabrication application

### Specifications

Airflow Rate 17 SCFM

Airflow Rate (metric)

481 LPM

**Applications** Grin

Grinding, Finishing, Sanding

**Brand** 3M<sup>™</sup>

Converted Form Power Tool

Equipment -Machines Random Orbital Sanders

Height (Metric) 3.26 Inch
Height (Metric) 82.9 mm

Industries Marine, Metalworking, Transportation & Heavy Equipment, General Industrial, Paint

Preparation, MRO, Aerospace, AOEM, Woodworking, Compos te

 Length
 5.89 Inch

 Length (Metric)
 149.6 mm

 Max RPM
 12000

Mineral Type Aluminum Ox de

Motor HP (W) .28 (209)

Orbit Diameter 0.18 Inch
Orbit Diameter 5 mm

(metric)

tric)

Pad Included Stikit™ Pad 20351

Product Form Power Tool

**Sub Industries** Primary Wood and Panel Processing, Custom Woodworking and

Millwork, Cabinetry, Furn ture, Metal Fabrication

**Weight Pound (kg)** 1.65 (.75)
