

## BNC Oscilloscope Probes (pair)

Part # 460-004P

Hide Details

- BNC-terminated
- Selectable 1X/10X input attenuation
- Contraction hook tip
- 12cm ground clip
- Localization sleeve adapts to IC testing
- Input resistance:
  - 1x1M $\Omega$
  - 10x10M $\Omega$
- Input capacitance:
  - 1x 85pF – 120pF
  - 10x 18.5pF – 22.5pF
- Bandwidth:
  - 1x DC-6MHz
  - 10x DC-100MHz

A pair of BNC-terminated oscilloscope probes, perfect for use with the Analog Discovery in conjunction with the Discovery BNC Adapter.
