Weller®

WHA 900

Code No. : **T0053171699**

Hot Air Station Set

Hot Air Station 650 W/230 V with built-in Turbine

- For easy repair applications and heating processes as e.g. shrinking
- Brushless turbine for ideal hot air flow
- Hot air temperature is electronically controlled

Technical Data

This station is ESD safe.

Dimensions L x W xH:	210 x 170 x 110 mm
Mains voltage:	230 V
Power consumption:	650 W
Hot air pencil output:	612 W
Fuse:	T4A
Temperature control:	infinitely variable between 50°C and 550°C
Control accuracy:	± 30°C (± 54°F)
Flow control:	infinitely variable between 5 - 50 l/min
Noise level:	56dB(A) distance 1m at max. airflow level
